

THE MONEY CATALYST:

THE FAST-TRACK TO WEALTH, FREEDOM, AND LIVING YOUR BEST LIFE

Publication date May 11, 2025

About the book:

What if you could transform your relationship with money just by reading a story? The Money Catalyst isn't another complex financial strategy you'll never implement. It's a transformative journey that works its magic while you simply turn the pages.

Mirabel's story will feel like reading hidden chapters of your life. You'll watch as the grip of scarcity thinking, inherited money patterns, and 'never enough' anxiety begins to loosen. As Mirabel discovers the eight Money Catalysts, you'll feel your own transformation beginning. Without struggle, you'll release the invisible chains linking money to love. You'll free yourself from financial codependency and finally feel worthy of keeping—and attracting—more money.

Through this journey, you'll learn to make decisions from a place of abundance, not fear, creating a future of wealth and joy without sacrificing today's happiness. While other books give you a map and wish you luck, The Money Catalyst rewires your relationship with money through story and reflection. Mirabel's journey and simple journal prompts will unlock insights that change everything.
